CAREER OBJECTIVE

Software Developer with 1+ year of professional experience in full-stack web development using React.js, Node.js, Express.js, and MongoDB. Knowledge of Java, object-oriented programming, Spring Boot fundamentals, REST APIs, SQL, and relational database concepts. Experienced in developing web applications, implementing authentication, integrating APIs, and debugging application issues. Seeking for a full time oppurtunity role to contribute my skills.

EDUCATION

Bachelor of Engineering 2021–2025
Vagdevi College of Engineering, Telangana **CGPA: 8.6**

Intermediate 2019–2021
Telangana Model College, Mulkannur **Score: 960**

SSC 2018–2019
Government High School, Subedari **CGPA: 8.7**

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, Python

Core Java: OOP, Classes and Objects, Inheritance, Polymorphism, Encapsulation, Abstraction, Exception Handling, Arrays, Collections, Constructors, Method Overloading and Overriding

Java Backend: Spring Boot Fundamentals, REST API Development, Spring Data JPA Fundamentals, JDBC Fundamentals

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, React Router

Backend Technologies: Node.js, Express.js

Databases: MySQL, SQL, MongoDB, Mongoose

Authentication: JWT, Role-Based Access Control

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Maven, npm

Concepts: CRUD Operations, MVC Architecture, API Integration, Database Connectivity, Responsive Web Design

PROFESSIONAL EXPERIENCE

Software Developer May 2025 – July 2026
Vegaahi, Hanamkonda

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built reusable React components and integrated frontend interfaces with RESTful backend APIs.
- Developed backend API endpoints for CRUD operations, authentication, data validation, and application workflows.
- Implemented JWT-based authentication and role-based access control to protect application resources.
- Designed MongoDB schemas using Mongoose and implemented database operations for application data.
- Integrated APIs, handled errors, debugged application issues, and tested endpoints using Postman.

- Used Git and GitHub for version control and source code management.

PROJECTS

Medical Management System *Java, Spring Boot, MySQL, React.js*

- Worked on a full-stack application using Spring Boot for backend development, React.js for the frontend, and MySQL for data storage.
- Explored REST API development and backend integration using Spring Boot.
- Worked with database configuration and relational data management using MySQL.
- Practiced backend application configuration, API testing, and debugging.

Learning Management System *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack online examination platform with separate Admin and Student functionalities.
- Implemented quiz creation, question management, exam attempts, and result tracking.
- Added JWT authentication, protected routes, exam timers, and automatic submission functionality.
- Implemented tab-switch monitoring and responsive user interfaces.

Online Art Gallery Management System *React.js, Node.js, Express.js, MongoDB*

- Developed an online art gallery supporting Customer, Artist, and Admin roles.
- Built REST APIs for artwork management, authentication, categories, and customer interactions.
- Implemented image uploads using Multer and stored artwork metadata in MongoDB.
- Created responsive interfaces for browsing and managing artwork.

CERTIFICATIONS

- Python – Great Learning
